## SHOALS COMMISSION WILL ADJOURN MONDAY

## KIWANIS TO HAVE PERMANENT HOME ON EPISCOPAL SITE

Deal Awaits the Final Approval of Bishop McDowell

## TO BE USED AS A COMMUNITY CLUB

Improvements Will Be Made At a Very Early Date

The sale of the Episcopal church property at the intersection of Walnut and Ferry streets to the Morgan Kiwanis club was announced today through Thomas E. Pride, realty agent in the transaction. The deeds have been signed, it is understood, and are only awaiting the approval of Bishop McDowell whose approval of the deal is expected at an early date. The sale price was given at \$4,500.

The Morgan Kiwanis club has been working for some weeks in an effort to purchase the property believing it to be one of the most suitable locations in the cities. The club will go to work at once on the improvements that are needed.

This property has not been in use for many years. The building was erected many years ago by the Episcopal people, but was never dedicated. It was used for a short while as a Sunday school room. The property is 92x160 feet and the building itself affords ample seating capacity for approximately 400 to 500 people.

It is the purpose of the club to use the building not alone for their own meetings, but it is the desire that the building be used by other organizations in the cities that may be without adequate gathering places.

The Morgan Kiwanis club has been working for some months in an effort to obtain a home of their own and believing the vacated edifice is ideal a sale was finally consummated through the present owners and the civic club.

Improvements in this property will consist chiefly of work on the interior the replacement of all windows and doors and a small amount of exterior improvement. The general condition of the building is said to be fairly good.

In the buying of this property the club is consistent with the progressive building spirit that has been shown in the activity of the organization. The step is believed by the membership to be one of the most progressive that has ever been taken by the organization.

## STRANGE CHARGE OF DESERTION PROBED BY POLICE OF ATLANTA

(Associated Press)  
ATLANTA, April 11—Allegations that a man deserted his wife and five children in North Carolina and disappeared so far as the are concerned for eight years, only to re-appear as a wealthy Georgia lumber man, with a third wife and three small children, today were being investigated by Atlanta police.

The man in the case is W. H. Bryan, of Macon Ga. He was arrested at the home here of his present father-in-law and is being held pending the arrival of a warrant from Wilmington, N. C., which charges, police said, desertion of wife and minor children.

Mrs. N. N. McWhorter, of Wilmington, who said she is one of Bryan's children and was a minor at the time of the alleged desertion, was responsible for the arrest.

She and her husband recently heard Bryan was in Macon she said, so they went there to investigate. Bryan had left for a business trip to At-

## MOTHER ASKED ABOUT DEATHS

Young Man Is Found to Be Suffering From Poison Today

(Associated Press)

CHICAGO, April 11—Developments today in the investigation of the poisoning of David Cunningham, Jr., of Gary, Ind., caused Coroner Oscar Wolf to announce that he would ask the coroner of Lake County, Ind., to exhume the bodies of Cunningham's father, David Cunningham Sr., a sister and three brothers, all of whom died under suspicious circumstances within a period of six years.

Coroner Wolf's decision that the exhumations ought to be made came after State's Attorney Crowe had detectives bring Mrs. Anna Cunningham widow of David Sr., to his office for interrogation and after the coroner had questioned David Jr., who is now under treatment at the Columbus hospital here.

Dr. Thomas A. Carter had found the young man suffering from poisoning. Crowe questioned Mrs. Cunningham concerning the death of the five members of her family in six years and the illness of her son. Her husband, one daughter, and three sons died after short illnesses. The husband and father, David Sr., died in Valparaiso, Ind., in 1919 and was the first of the family to succumb.

Subsequently the family moved to Gary. The son, David was reported in an improved condition today in a Chicago hospital.

## CLAUDE ROGERS IS DEAD AS A RESULT SHOTGUN WOUNDS

Said To Have Used Forked Stick In Firing Gun

## PROMINENT IN HARTSELLE AREA

Shot Is Said To Have Carried Away A Part of Head

(Associated Press)

Pushing the trigger with the aid of a forked stick Claude Rogers, aged 35 years a prominent farmer residing about 4 miles east of Hartselle shot himself to death, according to details given to the Daily today, near 4 o'clock Friday afternoon at his residence. Rogers was said to have used a shot gun in taking his life. Only one barrel was discharged and was said to have torn away a portion of the head. Ill health was given as the cause for Rogers taking his own life.

Mr. Rogers had been a prominent member of his community for many years having been a native of the section. He was considered to be well off, owning the property on which he farmed. He leaves a wife and one little daughter.

Funeral services were conducted this afternoon at 2:30 o'clock at Lebanon church. The remains were interred at that point. The deceased had been an active member in the religious affairs of his community.

According to the information given here today Mr. Rogers had become despondent over his ill health and Friday afternoon he loaded a shotgun, placed the muzzle of the gun in his mouth and with the aid of a forked stick pushed the trigger. The discharge took effect immediately, a portion of the head being torn away. One barrel of the gun was said to have been discharged.

It is understood that the coroner rendered the verdict that the wounds had been self inflicted after an examination of the body.

The deceased had a great number of friends in the Hartselle and Falkville section who were grieved at the news of the sad death.

## Twenty-six Added At Austinvill

The revival in Austinvill Baptist church is growing in interest and power. Twenty six new members have been added to the church, fourteen of them for baptism; besides six other professions. The meeting will probably continue until next Friday night. Services at 11 a. m. and 7 p. m.

Saturday night will be "Family Night" and Evangelist E. Floyd Olive will preach on "The Importance of Jesus in the Home."

A special service for men and boys has been announced for Sunday afternoon at 2:30 o'clock. The subject will be "The Manhood of the Master," and every man, and boy over 12 years old is urged to attend.

"Heaven" will be the subject discussed Sunday night, and a great crowd is expected. Rev. Wade, pastor of the Methodist church and his people have very graciously cancelled their Sunday night service in honor of the revival.

The singing led by Mr. and Mrs. C. H. Johnson has been a very attractive feature of the services. The Southside Glee club will sing at the Sunday afternoon Men and Boys' service.

## CHAMBER BACKING MINISTRY DESPITE DEFEAT IN SENATE

Four Groups of Party Adopt Resolution of Allegiance

## SENATE LEADER MAY BE PREMIER

Herriot Regards Note As Only Beginning Not End of Fight

(Associated Press)

PARIS, April 11—President Doumergue will reserve until tomorrow his decision as to the man who will be asked to form a new cabinet, it was announced at the presidential palace this evening, after the President had seen the last of an important group of political leaders.

PARIS, April 11—The Herriot cabinet is out of power, overthrown by the senate because of the charges that under M. Herriot's rule the legal limit of the bank note circulation had been secretly exceeded, but Herriot's majority in the chamber of deputies remains virtually intact.

At a general meeting this morning of the four groups of left parties, forming the government majority since last May, a resolution was adopted to "continue with unshakable determination the policies for which the country voted at the last election."

The meeting represented about 340 deputies, constituting a good working majority of the chamber.

The socialists, 104 strong, went even one better, when they decided they would support no other than M. Herriot.

The senate declared itself in such unequivocal manner, the adverse vote being 156 against 132, that although the consultations of President Doumergue, looking to the selection of a new premier, had hardly even started, it may be said that Herriot's immediate return is very unlikely.

M. Painleve, president of the chamber who announced that he would not accept the task of forming a cabinet, when it was first mentioned, but would "sacrifice himself to the cause of the lefts," should no other politician be found able to reconcile the widely divergent viewpoints of the senate and chamber, appears to be the man most likely to succeed in forming a ministry.

"Now for the battle," said Herriot after the resignation of his cabinet, plainly showing that he, his party and his allies regard yesterday's defeat in the senate not as the end, but the beginning of a struggle.

The ministers hold that having been elected directly by universal suffrage they also represent the nation and senate in overthrowing them defied the will of the people. The ministers placed their resignations in the hands of the president, who accepted them late last night.

WASHINGTON, April 11—The weather man spread good news today to all those planning to blossom forth tomorrow in Easter finery.

Generally fair weather over the entire country, with temperatures at normal or above was the forecast. There will be some scattering exceptions, with showers early tomorrow in some sections of New England and west of the Rocky Mountains.

In the belt from the Great Lakes eastward to North New England temperatures will be slightly above normal.

## GEORGE ARANTZ TO BE BURIED MONDAY

Prominent Citizen Dies At Brother's Home On Oak Street

Funeral services will be conducted Monday morning at 9:30 at St. Ann's Catholic church for George Arantz, who died at 5:50 o'clock Friday afternoon at the home of his brother, John F. Arantz, at 114 Oak street, Decatur. The funeral cortege will leave the residence at 9 o'clock for the church.

In the passing of George Arantz, a character well known over north Alabama has gone to his reward. The deceased was born at Lebanon, Penn., in 1849, moved with his parents, Philip and Rebecca Arantz to Ft. Wayne, Ind., in 1865. Then with his brother Frank Arantz he came into this territory in 1880. In 1881 he founded the first band saw mill in the south under the firm name of Geo. Arantz & Brother. He retired from active business in 1910, living a quiet home life until his death.

During the yellow fever epidemic of 1888 Mr. Arantz served as the mayor of Decatur and had charge and actually directed the interment of all who met death during that terrible period. Mr. Arantz regarded a gold headed cane that was given him by the citizens of Decatur for the service that he had rendered during that time of distress most highly.

The deceased is survived by two sisters: Mrs. Charles Buret and Miss Emma Arantz of Ft. Wayne, Ind., three brothers, Simon Arantz of Ft. Wayne, Ind., William Arantz of Memphis and John F. Arantz of Decatur.

The following will act as pallbearers: J. A. Nelson, Augustus Albee, William Moseley, M. H. Todd, A. D. Jervis and Sam Frank. Interment will be made at the city cemetery.

## MAN HELD IN DEATH OF PRETTY 16 YEAR OLD LONDON DANCER

(Associated Press)

LONDON, April 11—The Scotland yards authorities are detaining an unnamed man in connection with the death yesterday of Grace Blakaller, a pretty 16 year old dancing teacher, who was found with her throat cut Thursday night, huddled on the steps of her mother's home in the fashionable West Kensington district.

The mystery of the case, which previously has been set down as one of assault, deepened when the police came into possession of a letter which reached the girl Thursday morning and which they say is of the highest importance. Its contents are being closely guarded.

Prior to the detention of the man today, Scotland Yards had announced that it was searching for a man described only as a "young Indian student."

It was learned today that the girl, for the past five years, had not been living with her mother, but made her

## Young People Meet At Central Church

At a great mass meeting of the young people at the Central Methodist church on Friday evening, Dr. L. D. Patterson delivered what proved to be one of the most thrilling sermons since his arrival in the Twin Cities. A great congregation was present to witness the pageant given by the young people preceding the sermon. This pageant was written by Mrs. Lindsey who is director of Young Peoples and women's work in this campaign. "The Measure of Manhood" set forth the different appeals that are made to youth clearly picturing the highest and best religious ideal, that every boy and girl must follow to reach the highest and best in this life.

Dr. Patterson's sermon in the form of a detective story was a travalgogue lecture not surpassed by the world-known Stoddard's Lectures. Dr. Patterson having lived in China for seven years, gripped and thrilled his audience with the thrilling experiences from his life while abroad. He ran the gamut of wit, and humor, pathos, and sarcasm, dramatic imagination, and high spiritual appeal.

Three services at the church on Sunday will bring the Easter Revival to a close. Dr. Patterson speaking at all the services. A mass meeting at the church at three o'clock for men and boys only will be held Sunday afternoon, Dr. Patterson using as his subject, "Swallow your own Spit."

Something over one hundred and ten members have joined the church during this revival.

home with Captain Langmaid a retired regular army officer who, upon her father's death, had promised to make her his ward during her lifetime.

Captain Langmaid it is said, went to visit his own father and mother over the Easter week end and the girl had returned to her mother's house during his absence. She went alone to a motion picture performance on Thursday night and a few hours later her mother heard a cry and found the girl on the doorstep, with a wound in her throat.

The only words she would say, according to the report, were: "Boy from India."

Later her mother requested the police should not make an investigation. The case is complicated by the fact that a young man who was seen loitering about the vicinity, several days prior to the crime, told accosters he was a solicitor's clerk, watching the house in connection with divorce proceedings.

## "NONE CAN DIE WHO ARE FIT TO LIVE"

IS EASTER MESSAGE OF RADIO PASTOR (Written by Rev. S. Parkes, President of the Federal Council of Churches of Christ in America) Easter signifies the triumph of love and righteousness. It proclaims the truth that none can die who are fit to live.

It emphasizes the consequence of that truth, that supreme goodness is supreme life.

An angel stands at every believer's graveside to declare: "Not here, but risen,"—risen to find in the thrilling adventure of the Great Beyond fresh capacities for immortality, and to test out those already possessed.

In the light of Christ's victory over evil, infamy, violence and death, let us also arise and follow Him, with joyful spirit, lamps relit, and the heart of faith beating high in our confident breasts.

For if the Risen Living Jesus means Eternal Life to us, He also has an irreducible meaning for every one we can reach and serve.

## COTTON REPORTS AND FARM REPORTS ARE MOST ENCOURAGING

The weather reports of the past week from the Agricultural bureau in Washington showed a decided favor toward the planting of cotton and potatoes in the South, particularly Alabama, Georgia and the southern sections of North Carolina. The reports also carried announcement that the entire territory was busy with the planting of crops.

This feature of the week is particularly interesting in connection with the articles recently sent out by F. W. Gist, agricultural statistician at Alabama Polytechnic Institute. Mr. Gist reports that the values in farm lands have increased over the period of a year and that rentals are slightly above the figures of the past year.

The statistician notes that lands selling in 1924, poor grade plow land, for \$16 are now selling for \$18. He likewise gives the figures on better grades of land which were at \$35 in 1924 have increased to \$39, in the present year. Rentals have moved from the average of \$4.15 an acre a year ago to \$4.45 an acre at this time. The condition of gardens is said to be at 62 per cent of normal compared with 34 per cent of normal at the same period of a year ago. Furthermore, the statistician has noted better conditions in dairying and poultry raising.

So the entire state has a splendid outlook for the year for prosperity on the farms in the state mean an almost immediate prosperity in the industrial sector. One cannot benefit without aiding the other.

Bringing the subject to our own doors, we may also be thankful that the year is to be one of the best for our agricultural lands among the very best of the state. The farmer of this section has learned his lesson in the planting of cotton and the diversification of crops is the result. Morgan County will have a large amount of cotton this year, as she did last year, but with the steady growth of the farm lands and the general enlightenment of agriculturists regarding the advantage of the greater crop system, the gradual movement away from the one crop idea, Morgan County will have one of her greatest all round years in agricultural products provided the weather conditions will permit. The county has always been one of the most prominent in the state with regard to the fertility of the lands, but it has not always been in good standing, relative to the progress in other counties, with the remainder of the state in taking up the more modern systems. At almost any point in the county at this time the whirr of the engine can be heard in place of the teamster's shout to his horses.

Albany-Decatur should rejoice with the recent step forward in determining that a bridge will be built at this point for while it is believed that a great deal of tourist trade will result, the real aim has been set to give more adequate facilities to the farming trade, an encouragement that must be given before these people will come into our cities, sell their products and take ours in exchange. With the completion of the bridge there is little reason that Albany-Decatur should not feel an immediate stimulus from the Limestone section of north Alabama. The agriculturists on that side of the river will have been given a distinct invitation to come and trade with us without any preliminary tax before they can get their products to our markets. We believe that they will appreciate this move on the part of Morgan county and that they will not hesitate to take advantage of the opportunity to come with us.

Yes, this section will benefit greatly with the improvements in farming lands, the added facilities for farming and the almost complete revolution in ideas. Morgan County is blessed with some of the best lands in the state and when the figures are compiled in 1925 the Daily has reason to believe that Morgan will be with the leaders in agricultural development.

## STATE PRESS HAILS ADOPTION OF BRIDGE BOND ISSUE AS A GREAT PROGRESSIVE STEP

The endorsement by the people of Albany-Decatur of

the proposal for the issuance of \$100,000 worth of bonds is hailed by the state press as one of the most progressive steps the Twin Cities have taken.

The newspapers, commenting on the endorsement, call particular attention to the fact that less than 30 votes against the issue were cast in both municipalities. This is taken as an indication of the progressive spirit which animates the two cities and, in the matter of building up prestige for Albany-Decatur, it probably is one of the most beneficial features of the entire bridge movement.

The Age-Herald asserts that "after Tuesday's election there can be no doubt that the people of Albany and Decatur want a bridge across the Tennessee river."

Some of the state papers have fallen into the error of believing that the bridge will cost only \$200,000, half of which will be provided by the bond issue. This impression is erroneous. The Twin Cities provide only \$100,000, but Chairman John A. Rogers, of the state highway commission, estimates that the bridge will cost in the neighborhood of \$425,000. The state will provide all of the funds needed over \$100,000.

The Age-Herald, after pointing out the almost unanimous vote given the issues, continues: "It is not surprising that the residents of these two cities expressed themselves in this way, for the bridge putting them in connection with the rich and prosperous section north of the river has been a dream of many years."

"That was a proper and enterprising stroke the good people of Albany-Decatur put forth yesterday," declares the Huntsville Daily Times. The Times continues with the hope that the Twin Cities now may find some way to "pull together," adding "the Twin Cities are in North Alabama and for this reason we want to see them grow and prosper, but they'll never reach the heights of their ambition pulling apart."

"This means great things not only for the towns of Albany and Decatur, but it also means much for the entire northern end of the state," says The Limestone Democrat, published by R. H. Walker at Athens. Mr. Walker writes:

A free bridge across the Tennessee river at Albany-Decatur is assured by the almost unanimous passage of a \$50,000 bond issue by each of the Twin Cities Tuesday. The state highway commission assured the representative of those cities some time ago that the bridge would be built provided \$100,000 was contributed by the people. At first it was thought that the sum would be raised by public subscription but later a bond issue was adopted and the people of both towns voted overwhelmingly for it Tuesday. Only 27 votes were cast against the proposition.

This means great things not only for the towns of Albany and Decatur but it also means much for the entire northern end of the state. Heretofore thousands of tourists have gone to Florida each fall and returned home each spring by other than the Bee Line highway. When the bridge is built across the Tennessee, it means the Bee Line highway will be the most popular north and south route and in addition it means a greater and a highly profitable inter-communication between the section immediately south and immediately north of the Tennessee river.

The Birmingham News says: "By an overwhelming vote, the two municipalities of Albany and Decatur each voted a bond issue of \$100,000 in aid of a state highway bridge across the Tennessee river. The state will supplement the fund by \$100,000. Thus will be given an outlet to the north, greatly needed, and which will undoubtedly be a tremendous stimulus to growth and business in both of these progressive little cities. There will also be a great deal of tourist travel through, but that will hardly be productive of any great amount of business. There will be some incidental trade, perhaps, in gasoline and to the hotels, but otherwise not of any great value. The chief benefit will be in opening free communication with an area of great richness, and giving better facilities for communication and business. By the very act of voting these bonds both of the communities have stamped themselves as progressive, forward looking, and alert for betterment. The effect upon the morale of the inhabitants will be incalculable, and he who knows that Albany and Decatur are now in that category which God helps—because they help themselves."

## A TRAIN OF THOUGHTS for the Sabbath and Other Days

BY J. E. BLAIR

The progress of knowledge is hastened by what modern scientists call "experimental methods." For example, we did not know the world was round until people sailed around it. Scientists like to say they accept nothing as true, until it is proven to be true. In that respect they are exactly in accord with the religionists of the Bible. Old and New Testament writers alike invite—"Come and see." "Prove Me and see, if I will not pour you out a blessing." . . . saith the Lord." Put on the robes of righteousness and see if they are not becoming (whether they are 'fashionable' or not is a small consideration!) Put on the whole armor of God, and see if you cannot fight for righteousness! Try God's love and your fear of Him as shields, and see if such shields will not "quench the fiery darts of the wicked!"

Put on "the helmet of salvation" and see if it will not protect your mind from evil thoughts! And by all means try "the sword of the Spirit" before you surrender to the father of liars! "Taste and see if the Lord is not good," so we are invited by a Bible writer.

Christ Himself risked all on experiment. He asks nobody to believe Him upon a mere "ipse dixit." He says: "He that doeth My will shall know of the doctrine, whether I speak of myself, or of Him who sent Me." In other words if after a fair trial of Christianity, if it proves a failure in your life you are released from all obligations. Christ says, "Try my recipes—try my teachings, try Me. You never know a suit of clothes will fit until you try it on. You will never know the value of the robes of righteousness until you wear them! All the book knowledge of Christianity—even that found in the Bible itself, is of very small value compared to an "experimental knowledge of Christ in the life!" To illustrate—There is an old nursery rhyme that goes like this—"Try me father, try me and mark me on the wall, let sister stand beside me and see if I'm not tall."

If we will stand up beside Christ, we will see we are NOT tall. If we will put on His robes of righteousness, we will find they are very becoming! What mental proofs we can get up as to the truth of Christianity—are of value—but of no great value—mental development and spiritual growth have very little in common—a criminal is, intellectual or, ignorant; but no criminals are wearing the robes of Christ's righteousness.

## YOUR HEALTH

## When You Take a Vacation Choose a Healthy Place

By ROYAL S. COPELAND, M.D.

United States Senator from New York.  
Former Commissioner of Health, New York City.

WHAT sort of a vacation are you planning? Are you going away to some place where you know something of the water supply, the milk and the sanitary surroundings?

It may seem ahead of the season to talk about the Summer vacation, but it won't be long before the big day arrives. You will be studying time-cards and the advertising material of the resorts scattered from the lakes of Canada to the islands under the equator.

The reason I am talking about this is because I have observed for years that thousands come back with typhoid fever and other intestinal diseases. One of my friends suffered all Winter with an infection picked up in Europe last year.

I hope you will take a vacation and have a glorious time. You can do this without getting sick. You cannot be sure, however, unless you give heed to certain important sanitary rules.

Most State health officials make periodical and careful examinations of all resort hotels, camp sites and vacation establishments. The high-grade steamship lines are exceedingly careful about the water supply and sanitation of their ships. The large cities are watchful about such matters.

If I were you, however, if the trip is to be to a new place, I would make inquiries as to water, milk and food protection. You cannot be too cautious of your own health and the health of those who are dear to you.

Cooks and food handlers must be clean persons and free from disease. It is important that they be known not to be disease-carriers. Unfortunately, some persons who are perfectly well themselves may be the carriers and spreaders of disease.

I am not telling you these things to frighten you and to spoil a much-needed vacation. I am doing so, to put you on your guard, so that you won't run blindly into a place of danger.

Fortunately, most of us are immune to some diseases. Our powers of resistance enable us to fight off ailments which are always lying in wait. But it pays to be careful in a few matters, and by the exercise of reasonable caution the span of life is increased.

### Answers to Health Questions

M. O. J. Q.—Would you advise an operation on the eye for a tear duct that is closed?

A.—I would suggest that you consult an eye specialist and be guided by his advice.

G. F. M. Q.—What causes high blood pressure?

A.—It may be due to indigestion in diet for a long time or poor intestinal elimination. For further particulars, kindly send a self-addressed, stamped envelope and repeat your question.

A READER. Q.—How can I relieve indigestion?

A.—Eat plenty of green vegetables, fresh and stewed fruit and fresh eggs. Drink plenty of water. Make sure your intestines eliminate regularly. For further particulars, kindly send a self-addressed, stamped envelope and repeat your question.

MRS. H. B. Q.—Is it harmful to take salts once or twice a day?

A.—It is not wise to take salts unless they have been prescribed by the doctor. They have a tendency to thin out the blood.

A READER. Q.—What causes sneezing during the early part of the day and especially when using flour?

A.—This is probably a form of hay fever. For further particulars, kindly send a self-addressed, stamped envelope and repeat your question.

TROUBLED. Q.—Since a nervous breakdown I have had I have lost my voice. How can I regain it?

A.—As your general health improves you will probably regain your voice.

F. K. Q.—Is hardening of the breast serious?

A.—If by hardening you mean lumps in the breast, it would be wise to consult a physician immediately for a personal examination.

E. G. W. Q.—What is the best way to remove superfluous hair?

A.—This may be done by an electric needle. However, it requires the skill of an expert.

Dr. Copeland will answer for readers of this paper questions on medical, hygiene and sanitation subjects that are of general interest. Where the subject of a letter is such that it cannot be published in this column, Dr. Copeland will, when the question is a proper one, write you personally if a self-addressed, stamped envelope is enclosed. Address ALL INQUIRIES to Dr. Royal S. Copeland, in care of this office.

## PARCEL POST RATES EXPLAINED BY HUE

### Postmaster Requests That Public Preserve Rates for Reference

"We now have come to the important part of our rate series," said Postmaster E. E. Hue, today in discussing the increased postal rates which become effective on April 16.

"All mail not covered in the issue of April 9 and April 10, of The Daily, will be parcel post. All fourth class mail will weigh above 8 ounces and up to 72 pounds with a length and girth of 82 inches in the first and second zone and up to 50 pounds in all other zones. There is no change in zones or rates except there will be added 2 cents for each parcel other than parcels originating on rural routes, which packages must be stamped 'or marked' 'originated on rural route No.' Then too there will be if you want it a special handling charge of 25 cents per package. Do not confuse this with special delivery fees as this charge will have nothing to do with the delivery of the package when it arrives at its destinations, but only helps it to avoid delays at R. P. O.'s and Junctions, in other words it makes first class mail of it from the time you mail it until it reaches its destination postoffice.

"The insurance rate has also increased to

Not over \$5.00, 5 cents.  
Not over \$25.00, 8 cents.  
Not over \$50.00, 10 cents.  
Not over \$100.00, 25 cents.

"You will also have to pay 3 cents for return receipt the same as a register.

"This same parcel can be handled C. O. D. too at an increase  
Up to \$10.00, 12 cents.  
Up to \$50.00, 15 cents.  
Up to \$100.00, 25 cents.

"Then too you can send it Special Delivery up to two pounds 10 cents same as a letter to your sweetheart, up to 10 pounds 15 cents, up to the limit 23 cents.

"There will be a slight change in money order fees ranging from none less than 5 cents to a \$100 for 22 cents.

"Register fees will be 15 cents for a

value up to \$50.00 and 20 cents up to \$100.

"Not such a bad world to live in after all is it?"

Postmaster Hue asked that you retain your several copies of the Daily that you may refer to these changes. There will be no one cent mail except postal cards made and sold by your Uncle Sam; when you write a postcard other than this, put two cents on it.

## First Baptist Ends Revival Services

The revival services which have been held over a period of two weeks at the First Baptist church, Albany ended last night. A total of fifteen new members were received into the church during the course of the evangelistic services.

Reverend R. F. Stuckey, former pastor, conducted the services and received a great deal of interest in the work of the church. The meeting last night was said to have been the best meeting of the entire series. Before the sermon was given at last night's meeting the ordinances of baptism was administered to ten members.

## Advice to Girls

By ANNIE LAURIE

DEAR ANNIE LAURIE:  
I am a girl of nineteen and  
am very much in love with a young  
man twenty-two years of age,  
whom I met while I was on a  
vacation. We have been very good friends  
up to now and have been writing  
to each other.  
A short while ago I received a  
letter from a friend of mine say-  
ing he was going to stop writing  
to me. Should I tell him how  
much I care for him?

WORRIED ONE:  
I am a young man and I am  
very much interested in a girl  
who is evidently interested in  
me. I would not write. Continue  
to answer his letters in a happy, un-  
affected manner, and you will find  
I am sure, that his letters will be as  
frequent and interesting as ever.  
If the young man should discon-  
tinue writing you, it would be quite  
proper for you to drop him a note  
telling him that you did not receive  
his last letter and suggesting that  
it might have been lost in the mails.

DEAR ANNIE LAURIE:  
I am sixteen years of age and  
am very much in love with a man  
one year my senior.

We have not been friends for  
several months. How should I act  
toward him to win his friendship  
back?

BLONDY:  
I am a young man and I am  
very much interested in a girl  
who is evidently interested in  
me. I would not write. Continue  
to answer his letters in a happy, un-  
affected manner, and you will find  
I am sure, that his letters will be as  
frequent and interesting as ever.  
If the young man should discon-  
tinue writing you, it would be quite  
proper for you to drop him a note  
telling him that you did not receive  
his last letter and suggesting that  
it might have been lost in the mails.

DEAR ANNIE LAURIE:  
I am a young man eighteen  
years old and have been very  
friendly with a girl until another  
boy moved into our neighborhood.  
He has said things about me  
which has broken our friendship.  
Please tell me how to win back  
the friendship of this girl.

LONESOME T.

Guild, Mrs. Harold Hildreth sec-  
retary of the Auxiliary, Mrs. Harry  
Carpenter, president of the auxiliary  
and Mrs. Atlee Hoff, treasurer, are  
getting up reports that will show  
splendid progress during the past  
year.  
It was stated that forty were ex-  
pected from the Tri-Cities, fifteen  
from Huntsville, and about ten from  
Athens and the Guild is co-operating  
with the auxiliary in planning en-  
tertainment for them through their pres-  
ident, Mrs. H. A. Skeggs and Mrs. W.  
B. Edmundson, both of whom are  
giving much beneficial aid.  
It is the expectation of the local  
auxiliary to make this one of the best  
meetings of the conference.

## AMUSEMENTS

"Classmates," the First National  
production starring Richard Barthe-  
less at the Princess, Monday, presents  
West Point for the first time on any  
screen as the background of a silent  
drama.

The United States Military Acad-  
emy has been filmed for the news  
reels. The famous parades of the  
West Point cadets, pronounced the  
best drilled body of men in the world,  
have evoked cheers in theatres  
throughout both hemispheres. The  
Military Academy officials, however,  
have always refused to permit the use  
of the West Point cadets for a photo-  
play story. They felt that the Acad-  
emy, sacred to the finest traditions of  
America, must be held as a thing  
apart.

That permission was accorded to  
Barthelless to film "Classmates"  
within the walls of West Point was  
an unusual and signal honor to the  
young star. "Classmates" shows the  
actual life of a cadet through his four  
years at the Academy. The West  
Point officials supervised every de-  
tail, even to the making of uniforms  
for Barthelless and his company, so  
that "Classmates" is completely au-  
thentic.

The production carries the official  
endorsement of Brigadier General  
Frederick Sladen, superintendent of  
West Point, and the officials of the  
Academy. Incidentally, in presenting  
the life of a West Pointer, "Class-  
mates" reveals remarkable study of  
the development of a shy country boy  
into a man of force and character.

## Wrinkles Removed in 15 Minutes—Costs 3 Cents

Quite a sensation has been creat-  
ed in certain social circles over the  
wonderful rejuvenating effects of a  
simple tarkroot mixture which any  
woman can easily apply at home.  
The results are so remarkable that  
one has told others, who in turn have  
told many more, and now the new  
method bids fair to supersede all the  
patent "wrinkle removers," massage  
and other things used for the pur-  
pose.

This is the procedure: A spoonful  
of powdered tarkroot is mixed with  
a spoonful of lemon juice, and this  
is spread over the face. An amaz-  
ing transformation takes place, as  
the mirror shows. In less than 15  
minutes wrinkles, crowsfeet and  
creases have completely vanished.  
Facial contour is noticeably improved  
and the face looks years younger.  
The most skillful massaging could  
not produce such a wholesome effect  
as remains after the mixture has been  
washed off. Tarkroot is of course  
perfectly harmless. Inexpensive, too.  
An original package from the drug-  
gist contains sufficient to bring the  
cost per treatment under 3 cents.

## ORDER OF PUBLICATION

Mrs. Evie Cross, Complainant

vs.  
Mary Prosser, defendant.  
In the circuit court of Morgan County, Alabama.

To Mary Prosser.

You are hereby notified that under and by virtue of a writ of attachment issued out of the Circuit Court of Morgan County, Alabama, in favor of Evie Cross, and against you, was, on the 4th day of April, 1925, levied by the Sheriff of Morgan County, Alabama, on the following as your property, lying and being in the City of Albany County of Morgan and State of Alabama, to-wit:

Lot No. 5, Block 64, Addition 4, Decatur Land Improvement and Furnace Company, and further described as being House No. 1410, Fourth Avenue, South: and you are hereby notified to appear at the next term of the Circuit court of said County and defend said attachment suit, if you see proper so to do.

This the 4th day of April, 1925.

He gives full credit for his perseverance to his wife and their baby daughter, Madeleine. His device has been accepted by the Westinghouse Electric Company, which is said already to have paid him \$1,500,000 in royalties.

## ORDER OF PUBLICATION

B. B. Baggerly vs.  
Emma K. Baird et al.  
Circuit Court, Morgan County, Alabama, in equity.

In this cause, it appears to the register from the affidavit of complainant, that Raymond Fenn, Helen C. Fenn, Bula Tuthill and Arthur Logan defendants are non-residents of Alabama, over 21 years of age, and that the residence and post office address of each of said defendants are unknown, after diligent effort to learn the same. It is therefore ordered by

the register that publication be made once a week for four consecutive weeks in the Albany-Decatur Daily, a newspaper published in Morgan County, requiring said defendants to plead, answer or demur to the amended bill of complaint in this cause by May 10, 1925, or in thirty days thereafter a decree pro confesso may be taken against them.

This, April 10, 1925.

## Costly New Telephone Plant Requires Big Investment

At the close of the year 1924, the Southern Bell Telephone Company had a total investment in service of \$58,987,529, not including \$837,778 of construction work in progress.

Of this large investment \$12,022,770 is located in the State of Alabama.

Additional plant to meet the growing needs of the telephone users of Alabama was installed last year at a cost of approximately \$1,469,566.

The new plant is necessarily bought at today's prices, which, for equipment, material and other major parts of the telephone system, are 65 per cent higher than the pre-war prices. Wages and taxes alone are from 100 to 287 per cent higher.

An even greater investment

must be made in Alabama this year, with the result that the investment per telephone station is rapidly rising without a proportionate increase in the revenue per telephone station.

This creates a serious problem, in which the telephone users have an equal interest with the Telephone Company. The enormous sums of money needed each year cannot be secured unless the Telephone Company's credit is good, and the company's credit is judged by the earnings on the investment in service.

Telephone users are familiar with the increased extent and value of telephone service throughout Alabama, and the company is encouraged to believe that they will co-operate in making possible the enormous extensions needed in the early future.

## BILIOUSNESS

Retired Minister Tells How He Keeps in Good Form With the Assistance of Black-Draught.

West Graham, Va.—The Rev. Lewis Evans, a well-known retired minister, now past 80, living here, has a high opinion of Black-Draught, which he says he has taken when needed, for 25 years. "For years I had been suffering with my liver," he says. "Sometimes the pain would be very intense and my back would hurt all the time. Black-Draught was the first thing I found that would give me any relief."

"My liver has always been sluggish. Sometimes it gives me a lot of trouble. I have suffered a lot with it—pains in my side and back, and bad headache, caused from extreme biliousness."

"After I found Black-Draught, I would begin to take it as soon as I felt a spell coming on and it relieved the cause at once. I can recommend it to anybody suffering from liver trouble. A dose or two now and then keeps me in good form."

Made from selected medicinal roots and herbs, and containing no dangerous mineral drugs, Black-Draught is nature's own remedy for a tired, lazy liver.

## Moulton News

W. H. Voorhies civil engineer was transferred Monday to road divisions in Madison county with headquarters at Huntsville. For the past two years he has had charge of the engineering work on the Moulton-Decatur highway. Mr. Voorhies is succeeded by W. C. Griesham a civil engineer of Blount county. The engineering work on the county seat to county seat highway has been practically completed and well begun on the Valley road leading north with the promise of completion on it before early winter, a promise that bids fair to be fulfilled if a good beginning is any indication of the work being pushed.

A number of citizens of Moulton attended the Trade Day exercises at Courtland Monday where the enterprising Commercial club carried out a program of unusual interest for the hundreds of visitors to the town. Besides the usual attractions of the monthly occasion, at considerable expense, a skilled aviator with his plane and "Safety Last" Stranes of Indianapolis, were secured as the big feature of the day. Stranes gave a parade.

County court, presided over by Judge W. R. Jackson brought the usual number of cases to the fore with a number of school attendance cases having to be continued since in some trial by jury was demanded and in others an important witness did not reach town until after adjournment of the court for the day.

S. E. Rudd, Luke Stewart and Clifton Long, left Tuesday morning for Birmingham to attend Kamram Grotto.

Dr. J. S. Robertson presiding elder of the Decatur district held quarterly conference at Moulton Sunday and delivered a very interesting discourse at the evening service. Dr. J. A. Brock, a leader in the Methodist Centenary campaign, accompanied Dr. Robertson and preached the morning sermon. Three phases of work are to be stressed this year in the Decatur district, Dr. Robertson told his hearers, a greatly increased membership of the congregations in his charge, a greater enrollment in Sunday schools and the fullest response to all church assessments.

A delegation of representative Moulton citizens went to Courtland Tuesday to meet representative of the Alabama Power company who hold a conference at that place in the interest of better lighting for the valley section of Lawrence county. An effort is being made to get light and power placed at Moulton. It is said that both Courtland and Town Creek plan to run gins and machinery with electric power.

The Lawrence county board of education met in special session Saturday with all members but one present and transacted much routine but important business. The next regular meeting will be held on the last Friday in May.

Examinations for teachers will be conducted in Moulton beginning the third Monday in April, that is the 20th; prospective applicants for teachers license are notified that if they are unknown to the county superintendent they must be properly identified by some reliable person.

### How to Solve It

Every number indicates the beginning of a word—if horizontal, crosswise, until the first shaded stop to the right; if vertical, downwards until the first shaded stop below. Compare the synonyms in the appended lists to the spaces in the diagrams and fill in the words you know. These will give you clues to the more difficult words. When completed the words should interlock perfectly.
